## CUSTOM CALLING SERVICE

### S.1 General

S.1.1 Custom Calling Services are enhanced communication features provided in association with Business, Residence, and Key exchange access line service furnished from digital central office equipment located in telephone company buildings. Custom Calling is not provided in association with public or semi-public telephone service, P.T.A.S., party line or PABX service.

### S.2 Feature Description

#### S.2.1 Call Forwarding

This service redirects incoming calls to another telephone number. The customer can activate this service by dialing a code and entering the number to which calls should be forwarded. When activated, all calls that are forwarded when the line is idle cause a short ring on the forwarded line as a reminder that the service is active. To deactivate Call Forward, a customer must dial a special access code. All calls forwarded with this service are subject to transmission limitations and all applicable local and long distance charges.

#### S.2.2 Call Waiting/Cancel Call Waiting

This service alerts a customer who is on the phone that another local or long distance caller wants to get through the line. The customer will receive a tone signal to indicate another incoming call and the caller will receive the usual ringing tone. To place the first call on hold and answer the incoming call, the customer depresses the switchhook once. The customer can then toggle between both calls by depressing the switchhook. If the customer hangs up when a call is still on hold, the customer's line will automatically ring back.

Cancel Call Waiting allows a Call Waiting customer to deactivate the Call Waiting service by dialing a code. When this service is activated, the customer will not be interrupted by the Call Waiting tone and the incoming caller will receive a busy signal. Call Waiting will remain disabled for the rest of the call, but will be automatically restored upon call termination.

## CUSTOM CALLING SERVICE

### S.2 Feature Description (Continued)

#### S.2.3 Speed Call 8

This service allows the customer to keep a list of eight specified telephone numbers which can be dialed by using a one-digit (2 through 9) access code.

#### S.2.4 Speed Call 30

This service allows the customer to keep a list of 30 specified telephone numbers which can be dialed by using a two-digit (20 through 49) access code.

#### S.2.5 3-Way Calling

This service allows a customer to add a third party to an existing telephone call. To add a third party, the customer depresses the switchhook once to place the current party on hold, receives a dial tone, dials the third party's number, and then depresses the switchhook again to establish the three-way connection. All 3-Way calls are subject to transmission limitations and all applicable local and long distance charges.

#### S.2.6 Do-Not-Disturb

This service prevents incoming calls from ringing at the customer's premises. Callers will reach a recording which states that the number they have dialed is not accepting calls at this time and to try again later. A personal identification number (PIN) is available to allow selected callers the ability to override this service in order to reach the customer.

#### S.2.7 Call Forwarding-Remote Access

This service is an additive to the Call Forwarding service and allows the customer to activate and deactivate Call Forwarding from a telephone in another location. All calls forwarded are subject to transmission limitations and all applicable local and long distance charges.

#### S.2.8 Home Intercom-Basic

This service allows customers to redial their own directory number in order to talk to another party at a different extension. To activate this service, customers redial their own directory number and then hang-up. After a short interval, the phone will ring back. Once both parties pick-up the phone, they will be able to have a two-way conversation. This service is also known as Revertive Ringing.

## CUSTOM CALLING SERVICE

### S.2 Feature Description (Continued)

#### S.2.9 Warm Line

This service allows a call to be automatically placed to a pre-assigned number determined by the customer. The call will be placed once the customer's phone has been off-hook for a predetermined time-out period. The time-out period may be set at 1 to 14 seconds. During the time-out period the customer will receive a normal dial tone and can originate calls. Once the time-out period has expired, a call is automatically placed to the pre-assigned number as programmed by the Company.

#### S.2.10 Call Reminder

This service allows a customer to program a time at which a reminder call is desired. At the programmed time, the customer will receive a call placed by the Central Office Equipment. When the call is answered, the customer will hear a tone or a Company recorded announcement.

#### S.2.11 Call Hold

This service allows a customer to place a current caller on hold, which frees the line so the customer can initiate another call. To activate Call Hold, the customer depresses the switchhook to receive a dial tone and then dials a specific code. Only one call per access line can be placed on hold at a time. The held call cannot be added to another call, however, the customer can toggle between each call.

#### S.2.12 Personal Ringing

This service allows the customer to have up to four distinct telephone numbers on a single line. The second, third and fourth number will each have a distinctive ringing pattern so the customer can identify which number has been called. If a customer also subscribes to Call Waiting, each phone number will have a distinctive Call Waiting tone. If a customer also subscribes to Call Forward, the main directory number or all four telephone numbers can be forwarded.

## CUSTOM CALLING SERVICE

### S.2 Feature Description (Continued)

#### S.2.13 Call Forward-Busy (Variable)

This service routes incoming calls to another telephone number when the customer's dedicated number is busy. The customer can activate this service by dialing a code and entering the number to which calls should be forwarded. To deactivate Call Forward - Busy, a customer must dial a special access code. All calls forwarded with this service are subject to transmission limitations and all applicable local and long distance charges.

#### S.2.14 Call Forward-No Answer (Variable)

This service redirects incoming calls not answered after a predetermined number of rings to another telephone number. The number of rings is determined and set by the Company unless otherwise specified by the customer. The customer can activate this service by dialing a code and entering the number to which calls should be forwarded. To deactivate Call Forward - No Answer, a customer must dial a special access code. All calls forwarded are subject to transmission limitations and all applicable local and long distance charges.

#### S.2.15 Toll Restriction

This service enables customers to restrict all or a combination of 0+ and 1+ toll calls from being placed over their exchange lines/trunks. When a restricted call is attempted from a line/trunk equipped with this service, a dial tone or Company recorded announcement will be heard by the caller.

**PRIVATE LINE SERVICE**

**T.1            CONCURRENCE**

T.1.1       Lewisport Telephone Company, hereinafter called the concurring utility, except as specifically stated herein, assents to, adopts and concurs in the Private Line Service Tariff filed with Kentucky Public Service Commission by South Central Bell Telephone Company, hereinafter called the issuing utility as such Tariff, now exists, or as it may be revised, added to or supplemented by superseding sheets or issues, for Private line Service furnished by the issuing utility and concurring utility (including such service as is also participated in by one or more utilities), and hereby makes itself a party thereto and obligates itself to observe each and every provision thereof.

**T.2            EXCEPTIONS**

T.2.1       Customer provided terminal equipment on customer provided communication systems attached or connected to the facilities of the concurring utility and permitted to be used under this Tariff, may not be used for local exchange service of this concurring utility, unless there is compliance with provisions of the Tariff of this concurring utility.

T.2.2       Lewisport Telephone Company concurrence with the issuing utility is limited to private line circuits, that connect with the issuing utility or other connecting companies.

**PRIVATE LINE SERVICE**

**T.2                    EXCEPTIONS (CONTINUED)**

T.2.3            When private line circuits are provided solely on the facilities of Lewisport Telephone Company, the charges specified in paragraph T.3, will apply. These charges are based on a single pair of wire. In cases where one circuit requires multiple pairs, the charges in paragraph T.3 will apply to each pair of wires used in the circuit.

T.2.4            Lewisport Telephone Company will also charge a termination fee at the rate specified in paragraph T.3. A termination is defined as each premise appearance of the cable pair. Where multiple pairs are provided to provide one circuit, a termination charge will be applied to each premise appearance of each pair of wire.

T.2.5            The minimum service period on private line service is six months. A termination agreement will be required concerning the cost of installation of the service. This termination agreement will apply to private line services served solely by Lewisport Telephone Company and those served jointly with connecting companies. Service will not be initiated until the termination agreement is in the possession of the company.

**T.3                    MONTHLY CHARGES**

T.3.1            Each pair will be charged at the rate of \$3.50 for the first half mile, and \$1.00 for each quarter mile or fraction of a quarter mile thereafter. The measurement of distance will be made in route mileage.

T.3.2            Each termination of each pair will be charged at the rate of \$1.75 per termination.

**T.4                    DEFINITION AND LIMITATION OF SERVICE**

T.4.1            A private line circuit is defined as a pair or pairs of wire provided by the Company, for the private use of its customers. These circuits function without connection to local exchanges switching equipment of the Company.

T.4.2            Examples of circuits used for this purpose and provided by the Company are:

- a.    Circuits used for the transmission of data information.
- b.    Circuits used by banks and others for alarm purposes.
- c.    Circuits used for voice transmission between two or more points, which function separate from local exchange equipment.
- d.    Circuits provided as a vehicle to transmit radio signals, e.g., to connect city and county police and fire stations.
- e.    Circuits used to monitor power company substations or water company pump stations.

## PRIVATE LINE SERVICE

### T.5 DEDICATED DS1 SERVICE

(N)

#### T.5.1 General

Dedicated DS1 Service is a point-to-point intraexchange service that provides for simultaneous two-way transmission at 1.544 Megabits per second (Mbps). This service only transmits digital signals and uses only digital transmission facilities. Dedicated DS1 service and its features are offered subject to the availability of central office equipment and appropriate outside plant facilities. This service is specifically designed for customers that require dedicated DS1 facilities from a TDS TELECOM Central Office to their location.

#### T.5.2 Definitions

Clear Channel Capability - An optional feature of DTS that allows a customer to transport 1.536 Mbps on a 1.544 Mbps line with no constraint on quantity or bit sequence.

DS1 - Digital facility that is equivalent to 24 DS0s. Total transmission speed is 1.544 Mbps.

Digital Local Channel - A transmission path for Dedicated DS1 Service furnished from the Central Office to the demarcation point on the customer's premises.

#### T.5.3 Regulations

1. Dedicated DS1 Service is available for a minimum service period of one month.
2. Dedicated DS1 Service is available on a month-to month basis or under variable rate periods, with rates based on lengths of 12 months, 36 months and 60 months.
3. Rates for Dedicated DS1 under contract will not be increased by Company initiative until the contract period expires. Rates in effect at the time the service is installed will be applicable until the contract expires. Upon expiration of the customer's current payment period option, the customer may select a new payment period option at current rates or revert to current rates on a month-to-month basis.
4. For channelization of Dedicated DS1 Service, please see Digital Transport Service in Section Mc.

## PRIVATE LINE SERVICE

### T.5 DEDICATED DS1 SERVICE (Continued)

#### T.5.3 Regulations (Continued)

5. If the service is canceled by the customer prior to the completion of the service period, the customer will be obligated to pay a termination charge. The applicable termination charge will be equal to the number of months remaining in the contract times the monthly rate provided under the contract. Termination charges will not apply, however, if the customer replaces the service with comparable service and a contract length that is equal to or greater than the original contract period.
6. The rates listed in Paragraph D., following, assume the provision of a digital quality facility that uses existing exchange cable facilities compatible with this service. If such equipment, new facilities or changes to existing facilities are required for the provision of this service, a special construction charge based on the cost incurred to make the changes will apply in addition to the rates for Dedicated DS1 Service.
7. The two types of non-recurring charges associated with Dedicated DS1 Service include a Design Order Charge and an Installation Charge. The Design Order Charge applies once per order while the Installation Charge will apply for each Digital Local Channel installed.
8. The Installation Charge and Design Order Charge will not apply for the establishment of Dedicated DS1 Service when the customer signs an agreement to subscribe to the service for a minimum of 3 years. If the customer discontinues service prior to the conclusion of the 3 year agreement, the customer will incur a disconnection charge equal to the Design Order Charge and applicable Installation Charges. The disconnection charge will not apply if the customer purchases other services from the Company which replace Dedicated DS1 Service.

LEWISPORT TELEPHONE COMPANY

PSC 2  
Section V  
Second Revised Sheet 1  
Canceling First Revised Sheet 1

## MISCELLANEOUS SERVICE ARRANGEMENTS

### A. GENERAL

Advanced Calling Services (ACS) are optional services, offered in addition to regular exchange service, which allows customers to efficiently manage the call flow generated over their Exchange Access Line(s). Customers will be able to screen, redirect, or return selected calls. These services offer subscribers convenience, time savings, and a greater degree of control over the use of their telephones. Advanced Calling Services are available to residence and business customers where facilities are available. Individual feature availability may differ by exchange.

### B. SERVICE DESCRIPTION

#### 1. CALL REJECTION

This service enables a subscriber to reject up to a maximum of six (6) preselected incoming telephone numbers from which he/she does not wish to receive calls. To select a telephone number, the subscriber dials a unique code and then constructs or modifies a telephone number screening list. To add an unknown telephone number to the list, a subscriber can activate a code immediately after receiving an unwanted incoming call. The Company's equipment will screen incoming calls against the subscriber's list and reject those on the list. Callers whose numbers are rejected are directed to a Company recorded announcement. If facilities are unavailable to provide incoming call screening via the subscriber's list, standard call completion will occur.

#### 2. CALL RETURN

This service enables the subscriber to automatically redial the telephone number of the most recent incoming call. The Company's equipment will make repeated attempts to establish the call for approximately a thirty (30) minute period, beginning with the subscriber's activation of Call Return if the most recent incoming call is busy. If the most recent incoming call is blocked, the subscriber will get a Company recorded announcement indicating the number is a private number and the call cannot be returned. The service cannot be activated for calls originating from a line that is forwarded or from a line not associated with a telephone number, e.g., multiline hunting groups.

Call Return is available on a per usage or flat rate basis. This service will have a per activation rate and a specified number of chargeable activations. After the specified number of chargeable activations, each activation thereafter will be at no charge.

MISCELLANEOUS SERVICE ARRANGEMENTS

B. SERVICE DESCRIPTION (Cont'd)

3. **PREFERRED CALL FORWARDING**

This service enables the subscriber to forward up to a maximum of six (6) preselected incoming telephone numbers to another telephone number. To forward a telephone number, the subscriber dials an activation code and then constructs or modifies a telephone number screening list. The Company's equipment will screen incoming calls against the subscriber's list and forward only those telephone numbers on the list. Calls forwarded by this service are subject to all applicable local and long distance charges. These calls are also subject to transmission limitations.

4. **PRIORITY RINGING**

This service allows the subscriber to provide up to a maximum of six (6) preselected incoming telephone numbers with a distinctive alerting signal or ring (or a distinctive Call Waiting tone if the subscriber has subscribed to Call Waiting), when the subscriber receives calls from them. To program a telephone number, the subscriber dials a unique code and then constructs or modifies a telephone number screening list. The Company's equipment will screen incoming calls against the subscriber's list and provide the Priority Ringing service for the preselected telephone numbers on the subscriber's list.

5. **REPEAT DIALING**

This service enables the subscriber to automatically redial the last outgoing telephone number dialed from that line. When the recalled telephone number is busy, the Company's equipment will make repeated attempts to establish the call for approximately a thirty (30) minute period, beginning with the subscriber's activation.

Repeat Dialing is available on a per usage or flat rate basis. This service will have a per activation rate and a specified number of chargeable activations. After the specified number of chargeable activations, each activation thereafter will be at no charge.

(N)  
|  
(N)

6. **SPECIAL CALL ACCEPTANCE**

This service enables a subscriber to allow up to a maximum of six (6) preselected incoming telephone numbers to be accepted. To select a telephone number to be accepted, the subscriber dials a unique code and then constructs or modifies a telephone number screening list. The Company's equipment will screen incoming calls against the subscriber's list and allow only those calls to be completed. Calls from all other numbers will be routed to a Company recorded announcement.

(N)

7. CALLER ID

Caller ID - Basic (Number only) and Caller ID - Deluxe (Name and Number) are the available services.

**Caller ID - Basic (Number Only)**

This service utilizes specific network capabilities to transmit and display the number associated with an incoming call to the called party's access line. The number of the incoming call is transmitted during the silent interval between the first and second ring of the called party's line. Caller ID subscribers must provide, and connect, their own compatible premises equipment in order to process and display the number transmission. The Company will forward all telephone numbers where technically feasible.

If a calling party has activated blocking, the number will not be transmitted to the display equipment of a Caller ID subscriber. Instead, the Caller ID subscriber will receive a privacy indicator. This privacy indicator notifies the Caller ID subscriber that the calling party chose to block number delivery.

**Caller ID - Deluxe**

This service utilizes specific network capabilities, where technically feasible, to transmit the Name and Number associated with an incoming call to the called party's access line. The name and number of the incoming call is transmitted during the silent interval between the first and second ring of the called party's line. Caller ID - Deluxe subscribers must provide, and connect, their own compatible premises equipment in order to process the name and number transmission. The Company will forward all telephone numbers where technically feasible.

If a calling party has activated blocking, the name and number will not be transmitted to the display equipment of a Caller ID - Deluxe subscriber. Instead, the Caller ID - Deluxe subscriber will receive a privacy indicator. This privacy indicator notifies the Caller ID - Deluxe subscriber that the calling party chose to block name and number delivery.

At this time, name and number blocking may not be provided on all calls originating from public, semi-public or other services used by the general public. This depends on feature availability.

8. CALLER ID BLOCKING

Caller ID Blocking allows the subscriber to prevent the delivery of their calling data to a Caller ID subscriber on a per call basis (Caller ID Blocking - Per Call) or per line basis (Caller ID Blocking - Per Line).

a) Caller ID Blocking - Per Call

This service will block the delivery of the caller's data to a Caller ID subscriber for one call only and may be activated from all single party access lines by dialing \*67 (1167 from a rotary phone) prior to placing the call. **PER THE FCC CALLER ID ORDER, EFFECTIVE 12/1/95, CALLER ID BLOCKING - PER CALL IS PROVIDED TO ALL CUSTOMERS AT NO CHARGE.**

As of 1/1/97, per FCC Docket 91-281, per call blocking will be provided on calls originating from public, semi-public or other paystations used by the general public and party lines.

b) Caller ID Blocking - Per Line

This service will automatically block the delivery of the caller's data to a Caller ID subscriber on all calls and will be made available or offered, at no charge, to law enforcement agencies and domestic violence programs and Non-Published Residential customers. Per line blocking can be deactivated by dialing \*82 (1182 from a rotary phone) prior to placing the call.

B. SERVICE DESCRIPTION (Cont'd)

9. CALL TRACE

This service enables the customer to initiate a trace of the last incoming call completed by dialing an activation code immediately after terminating the call. A Call Trace is considered successful when the Company's equipment is able to record the incoming call detail (not the conversation). Incoming call detail includes: the calling number, the time the trace was activated, and in some locations, the time the traced call was received. Upon completion of a successful trace, the customer will be assessed a Call Trace fee that will appear on the customer's next bill. The results of the trace are never provided to the customer directly. Call Trace information will only be given to appropriate law enforcement agencies. For further action to be taken, the customer is required to contact the Telephone Company Business Office during normal business hours, which will refer the customer to appropriate law enforcement agencies, or contact the law enforcement agency directly. In addition, the business office will contact the customer when two successful traces have been made to the same number within thirty days. Call Trace detail will be retained by the company and made available to the local law enforcement for ten business days after the trace has been initiated.

Call Trace may not capture incoming telephone numbers marked "private" or "out of area".

Only calls from locations with compatible signaling services are traceable using Call Trace.

10. ANONYMOUS CALL REJECTION

This service enables a subscriber to reject incoming calls from which a privacy indicator is received. The service is activated by dialing a unique code. When the service is active, the Telephone Company ("Company") will not complete calls to its customer when the calling party has activated Caller ID blocking services. Such calls will be routed to a Company recorded announcement.

MISCELLANEOUS SERVICE ARRANGEMENTS

C. SPECIAL CONDITIONS AND LIMITATIONS

(N)

1. Special Conditions for Caller ID:

- a) An originating caller's data may not be displayed at the called party under the following conditions:
- 1) The caller's data will not be displayed if the called party is off-hook. The called party must be on-hook to receive the caller's data. If the customer subscribes to both Call Waiting and Caller ID, and is on an existing call, a second incoming call information will not be displayed. Instead, the called party will receive the usual Call Waiting tone.
  - 2) The caller's data will not be displayed if the called party answers the incoming call during the first ring interval.
  - 3) Caller ID services cannot be provided with any distinctive ringing lines having a maximum silent interval duration that is not long enough to allow transmission of the data message.
  - 4) Identification of names, specific stations or extensions served by a PBX or Key System is not possible. The main directory number of the PBX or Key System will be displayed.
  - 5) Caller ID - Basic and Caller ID - Deluxe cannot be provided if the calling party is from a multi-party line. The called party will receive an "Unavailable" display.
  - 6) The Caller's data will be unavailable if it is from another office that is not linked by appropriate facilities with the called party's office.
  - 7) The calling party has activated blocking.
  - 8) Caller ID services do not display a directory number or name and number (if available) for operator assisted calls, calls marked private by the originator or calls originating from coin and party line stations.
  - 9) Caller ID services cannot be provided if the calling party is from a multi-party line. The called party will receive an "Unavailable" display.

1. Special Conditions for Caller ID: (Cont'd)

- b) The following special conditions apply to Caller ID services based on the FCC Caller ID Order effective 12/1/95:
- 1) If a customer dials a "1-800" or other Automatic Number Identification (ANI) Service number, the telephone number that they are calling from will be revealed to the called party through ANI technology. Even if the customer has per line blocking or has activated per call blocking, the 800 number party has the right to obtain this information through ANI.
  - 2) ANI information may not be reused or resold for other purposes without a caller's consent, even where the called party has paid for the call.
  - 3) Caller ID services are available on all long distance calls where technically feasible.
  - 4) All calling data will be displayed to E911 through ANI technology, even if the customer has per line blocking or has activated per call blocking.
  - 5) All calling data will be passed, even for customer who do not subscribe to Caller ID.
  - 6) Per call blocking will be available to all customers. (The FCC Order overrules all state PUC/PSC decisions on Per call blocking.)

## A. LOW-INCOME ASSISTANCE PROGRAMS

Low-Income Assistance Programs consist of two programs, Lifeline Assistance and Lifeline Connection Assistance. These programs were developed to reduce rates for low income customers. The Company participates in both of these assistance programs to increase the availability of telecommunications services to all consumers in its serving areas. The structure of each program is outlined in the following paragraphs.

### 1. Lifeline Assistance

#### a. General

Lifeline Assistance reduces an eligible customer's monthly rates for local service. An eligible customer receives credit for the Federal Subscriber Line Charge as well as a credit towards the residential access line rate.

#### b. Regulations

1) Lifeline Assistance is available to all residential customers who meet the following eligibility requirements:

a) Customers must participate in one of the following programs: Participation in Medicaid, food stamps, Supplemental Security Income (SSI), federal public housing assistance or Section 8 ( a Federal Housing Assistance Program administered by the Dept. of Urban Development), Low Income Home Energy Assistance Program (LIHEAP), Temporary Assistance to Needy Families, or National School Lunch's free lunch program.

(N)  
(N)

b) To receive benefits, customers must sign a document certifying under penalty of perjury that they are receiving benefits from one of the programs listed in Paragraph 1)a) above. The document will identify the program or programs from which the customer receives benefits and specify that the customer will notify the Company if he/she ceases to participate in such program or programs.

2) As a participant in Lifeline Assistance, customers are eligible to receive Toll Restriction Service at no charge. This service will only be provided at the customer's request.

3) Local service deposit requirements will be waived for customers who voluntarily receive Toll Restriction Service.

## A. LOW-INCOME ASSISTANCE PROGRAMS (Continued)

### 1. Lifeline Assistance (Continued)

#### b. Regulations (Continued)

- 4) Participants in Lifeline Assistance shall not be disconnected from Local Service for non-payment of toll charges. In addition, the Company will not deny re-establishment of local service to customers who are eligible for Lifeline Assistance and have previously been disconnected for non-payment of toll charges. Lifeline Assistance will not be connected if an outstanding balance is owed by the customer for local service.
- 5) Partial payments that are received from Lifeline customers will first be applied to local service charges and then to any outstanding toll charges.

#### c. Credits

The following credits\* will apply for each customer eligible for Lifeline Assistance:

	Monthly Credit*	
1) Federal Subscriber Line Charge Credit	(1)	(C)
2) Initial Federal Credit to Residential Access Line	\$1.75	
3) State Credit to Residential Access Line	\$3.50	
4) Additional Federal Credit to Residential Access Line	\$1.75

2. Lifeline Connection Assistance (Link-Up)

a. General

Link-Up reduces an eligible customer's service connection charges. All eligible customers receive a credit for half of the service connection charges up to \$30.00.

b. Regulations

- 1) The same eligibility requirements as outlined in Paragraph 1.b.1 above will apply for Link-Up.
- 2) This credit is only available on the installation of a single residential access line to the principal residence of the eligible customer.
- 3) This credit will only apply a second or subsequent time for a principal place of residence with a different address from the previous address at which Link-Up was provided.
- 4) A deferred schedule for payment of the remaining service connection charges will be offered to Link-Up customers. The customer is not required to pay interest on the first \$200 of service connection charges that are deferred up to a year.

c. Credit

- 1) Half of Service Connection Charges or \$30.00, whichever is less.

3. Kentucky Lifeline Support

The Lifeline Assistance program shall be funded through the Kentucky Lifeline Support surcharge.

**X.3            SCOPE (CONTINUED)**

X.3.5        The franchises, consents, permits, licenses, easements, and rights-of-way of the Company are for it's own facilities and the provision of it's other services. No rights in such franchises, consents, permits, licenses, easements, or rights-of-way are conferred upon any CATV company hereunder.

**X.4            APPLICATION OF NOTIFICATION TO INSTALL**

X.4.1        At forty-five (45) days prior to the time the CATV company desires to attach it's equipment to any of the Company's poles, or to install any such equipment within a cable duct of the Company, the CATV operator shall make written application on the form prescribed to the Company. The Company shall, in turn, notify the CATV company in writing of it's notification to allow the installation.

X.4.2        Where the application for attachment involves joint-use poles, the CATV operator shall so indicate in it's application, and provide a copy thereof to the joint user. Permission to attach to joint-use poles shall be subject to the Company obtaining approval from such joint user when necessary.

X.4.3        Upon notification by the Company for pole or cable duct space to be used by the CATV company, the CATV company shall have the right, subject to the SPECIFICATIONS contained herein, to install, maintain and use it's equipment described in it's application, upon the poles or in the cable ducts identified in it's application.

**CATV POLE ATTACHMENT AND CABLE DUCT ARRANGEMENTS**

**X.4                    APPLICATION OF NOTIFICATION TO INSTALL (CONTINUED)**

X.4.4                Where costs are involved in the rearrangement of the Company's facilities to accommodate the CATV company's equipment, the Company shall notify the CATV company, in writing, of the changes and rearrangements required and the cost for performing such. Approval of the application by the Company is subject to receiving authorization from the CATV company to make changes and rearrangements detailed by the Company, at the CATV company's sole expense.

X.4.5                The CATV company shall not have the right to place, nor shall it place, any additional equipment upon any pole or in any cable duct without first making application and receiving the Company's notification to do so, as provided for in this tariff; nor shall the CATV company change the position of any equipment attached to any such pole or installed in any cable duct without the Company's prior written approval. The provisions of this paragraph shall not restrict the attachment of television drops to television crossarms or television cable messenger. Unauthorized attachments or installation in cable duct shall be subject to penalty and/or special "make-ready" charges set forth in this tariff.

**X.5                    ATTACHMENT SPECIFICATIONS**

X.5.1                The CATV company, at its own cost and expense, shall construct, maintain and replace its attachments on the Company's poles in accordance with (1) such requirements and specifications as the Company shall prescribe and have on file with the Commission, (2) EEI Publication M12 entitled "Specifications for the Construction and Maintenance of Jointly-Used Wood Pole Lines Carrying Supply and Communication Circuits",

CATV POLE ATTACHMENT AND CABLE DUCT ARRANGEMENTS

X.6            INSTALLATION AND MAINTENANCE OF CATV EQUIPMENT  
                 (CONTINUED)

- X.6.2            Where reasonable cause exists, the Company, with concurrence from the CATV company, may make the attachment or replacement of the CATV's equipment to Company poles. In such cases, the CATV company will furnish all such materials and equipment, and will reimburse the Company for the entire installation costs incurred. The CATV company shall deposit with the Company, prior to such installation, sufficient sums estimated by the Company to be adequate to reimburse it for the work.
- X.6.3            If the CATV company grants permission for the Company to perform installation, rearrangement or removal of CATV equipment in the Company's cable ducts, this shall be performed by the Company at the sole expense of the CATV company. Such work shall be performed in accordance with the Company's established practices, and the CATV operator will furnish all materials and equipment to be installed and pay, in advance, the Company's estimated costs of such work.
- X.6.4            Where the CATV company's equipment can be accommodated on Company poles or in Company cable ducts by rearranging or changing the Company's facilities, the CATV company shall pay the Company the cost of making such rearrangements or changes. Strengthening of poles (guying) required to accommodate the attachments of the CATV company and the bonding of the CATV's strand to that of the Company shall be performed by the Company at its sole risk and expense. Such work may be performed by the Company with concurrence for the CATV company, and the CATV company shall pay the Company the cost of all such work.

**CATV POLE ATTACHMENT AND CABLE DUCT ARRANGEMENTS**

**X.6            INSTALLATION AND MAINTENANCE OF CATV EQUIPMENT**  
**(CONTINUED)**

X.6.5            After initial attachment, when the Company subsequently requires a change in its poles, attachments thereto or its conduit system for reasons unrelated to CATV operations, the CATV company shall be given at least 48 hours advance notice of the changes required and sufficient time to accomplish the CATV related change. If the CATV operator is unable or unwilling to meet the Company's time schedule for changes in attachments, the Company may do the work and charge the CATV company its reasonable costs for performing the change of CATV equipment. In cases of emergency, the Company may, at the CATV company's sole expense, arrange to relocate or replace the facilities attached to Company poles by the CATV operator, transfer them to substituted poles or perform any other work in connection with said facilities, that may be required in the maintenance, replacement, removal, or relocation of said poles the facilities thereon or the equipment which may be placed thereon.

X.6.6            All required maintenance of CATV equipment shall be performed by the CATV operator. No entry shall be made into any facility housing the cable ducts without written notification of the Company. The Company reserves the right to require the presence of it's representative at the time of any such entry, with the cost thereof to be reimbursed by the CATV company. An estimate of such cost shall be furnished at the time the Company gives its written notification for entry.

X.6.7            All tree trimming required on account of CATV company equipment shall be done by the CATV operator at its sole expense and in a manner satisfactory to the Company.

**CATV POLE ATTACHMENT AND CABLE DUCT ARRANGEMENTS**

**X.6                    INSTALLATION AND MAINTENANCE OF CATV EQUIPMENT**  
**(CONTINUED)**

- X.6.8            The CATV company shall, at its sole risk and expense, maintain all of its equipment on Company poles or in Company cable ducts in safe condition and in thorough repair.
- X.6.9            Nothing herein contained shall give to the CATV company the right to place a crossarm on any Company pole. If a crossarm is required to accommodate the facilities of the CATV company, the CATV company shall state their reasons in its application for attachment.
- X.6.10           The CATV company shall not at any time make any additions to, or changes in, the location of its attachments on poles or equipment in cable ducts without prior written consent of the Company, except in cases of emergency when oral notification has been obtained from the Company and subsequently confirmed in writing.
- X.6.11           If the CATV company should require the location of its equipment upon any public thoroughfare or other public or private property in the conduit of its business and the Company does not have pole facilities so located to fulfill CATV requirements and has no immediate need for such for the Company's own use, the Company will notify the CATV operator whether the Company is willing to place such pole facilities. Special rental charges shall be agreed to by the CATV company prior to the Company's placement of such pole facilities, and the rental charges specified herein shall not apply. The special rental charges shall be based upon the total use of the pole facilities by the CATV company. In the event such pole facilities are subsequently used by the Company for the provision of its other services, the special rental charges shall no longer apply, and the rental charges specified in this tariff shall apply.

X.6.12            Whenever, pursuant to this tariff, the CATV company shall be required to remove its equipment from any pole, such removal shall be made within thirty (30) days following the notice given by the Company to the CATV, except as otherwise specifically provided. Upon failure of the CATV company to remove such equipment within thirty (30) days or as otherwise required, the Company may remove them and charge the CATV company all costs associated with such removal.

X.6.13            Whenever, pursuant to this tariff, CATV equipment in cable ducts shall be required to be removed, relocated or replaced, such work shall be performed by the Company after written notice to the CATV company, at the CATV company's expense unless written notification is given to the CATV company to perform such work. Any CATV equipment required for such work shall be supplied by the CATV operator.

X.6.14            The CATV company can interset poles where the Company facilities are located except shall not locate poles, guys, or other facilities where they will interfere with access to Company poles.

**X.7                    COST OF POLE REPLACEMENTS**

X.7.1            Whenever the CATV company applies to attach to a pole that is considered by the telephone company to be insufficient in height or strength for accommodation of CATV attachments, the Company shall notify the CATV operator of such fact and of the estimated cost to the CATV company of replacing such pole with a pole which will accommodate the attachments of the CATV company and the telephone company.

- X.10.1        No use, however extended, of the Company's poles or cable ducts under this tariff shall create or vest in the CATV company any ownership or property right in said poles or ducts. Nothing herein contained shall be construed to compel the Company to maintain any of its facilities for a period longer than that demanded by its other service requirements.
- X.10.2        The Company reserves to itself, its successors and assigns the right to maintain its poles and conduit and to locate and operate its facilities in such manner as will best enable it to fulfill its other public service requirements. The Company shall not be liable, except for gross negligence to the CATV company or for any interference with the operation of the equipment of the CATV company.
- X.10.3        The Company reserves the right to provide pole attachment and cable duct space available to other entities. This tariff shall not limit the rights and privileges previously granted to other to use any poles or cable ducts covered by this tariff, and the privileges provided by this tariff shall at all times be subject to such previously granted rights, except when pole attachment is, or can be available.
- X.10.4        Failure to enforce or insist upon compliance with any of the terms or conditions of this tariff shall not constitute a general waiver or relinquishment of any such terms or conditions, but the same shall be and remain at all times in effect.

X.18 PENALTY CHARGES

X.18.1 Where pole attachments have been made without receipt of authorization from the Company, a penalty charge of twice the amount of the annual rental rate shall apply, in lieu of the annual rental rate, from the date of the last previous physical inventory of the pole attachments or inspection required pursuant to the rules of the Kentucky Public Service Commission, whichever is most recent. Additionally, a special "make-ready" charge, equal to twice the amounts which would have been due and applicable if the attachment had been properly authorized, shall apply.
